

RECYCLE DAT!

ALUMINUM • GLASS • BEADS

ABOUT

Mardi Gras parades produce as much as 2.5 million pounds of landfill-bound street waste in just 11 days. The city of New Orleans and dozens of partners hope to reduce waste by recycling valuable materials.

Parade-goers can drop-off cans, beads, and glass to one of the Recycle Dat! hub locations during the weekend day parades.

In addition to recycling options on the route, residents can bring their glass to **Glass Half Full**, aluminum cans to **EMR Metal Recycling Mid-City**, and beads to one of **ArcGNO's** many drop-box locations. These options are available year-round!

VOLUNTEER

Want to help reduce waste at Mardi Gras? Join NOLAReady and the Mayor's Office of Resilience and Sustainability. Volunteers are needed distribute bead recycling bags and staff recycling hubs along the Uptown parade route during weekend day parades (Feb 11-12, 18-19). Shifts are only four hours long and volunteers will get fun incentives like fanny packs, t-shirts, and brewery coupons! Sign-up at ready.nola.gov/volunteer.
